## OUR REWARDS

We value our rewards, they make us feel happy and proud and encourage us to do even better. We like that we get rewarded for: our good work, being kind, being responsible, having good manners, being resilient, being supportive and trying our best.

## OUR CONSEQUENCES

We feel that it is important to have consequences so that everyone has the opportunity to enjoy their learning.

Our consequences are fair because we are given a warning to help us do the right thing.

We would like to have the opportunity to discuss why we have done something so that we don't do it again.
